# Window Well Supply Corp. Load Capacity and IRC Conformance

The following Window Well Supply Corporation products have been designed to withstand a 500 lb static load:

- Aluminum-reinforced Polycarbonate Window Well Covers (“Low Profile Covers”)
- Aluminum Mesh Window Well Grates

Window Well Supply Corp. certifies that, when installed per provided specifications, our covers meet or exceed requirements set forth in IRC R310.4:

> **R310.4 Bars, grilles, covers and screens.** Bars, grilles, covers, screens or similar devices are permitted to be placed over emergency escape and rescue openings, bulkhead enclosures, or window wells that serve such openings, provided the minimum net clear opening size complies with Sections R310.1.1 to R310.1.3, and such devices shall be releasable or removable from the inside without the use of a key, tool, special knowledge or force greater than that which is required for normal operation of the escape and rescue opening.

*Window Well Supply Corp. recommends that all customers confirm with their local Building Code enforcement office to verify that products meet local building codes and requirements.*
